Subject: Geology Resources

Michelle,

As a follow-up to our phone conversation this morning, here are some potential resources for obtaining relevant geologic information:

- National Geologic Map Database: https://ngmdb.usgs.gov/ngmdb/ngmdb_home.html

There are likely others papers/studies, but here are a couple that were identified by searching for different combinations of Wyoming Steamboat Butte Geology and Faulting in a search engine.

- Faulting in Steamboat Butte and Pilot Butte anticlines, west-central Wyoming:

- Geology of the Steamboat Butte-Pilot Butte area, Fremont County, Wyoming:
